GEMStar ARR-850593 Bottle Heater Jackets

ARRADIANCE®

The Arradiance GEMStar Bottle Heater Jackets are engineered for GEMStar Material Bottles (ARR-40591B-DOT) to provide controlled and even heating to precursors that require it. Temperature setting, power output and timing easily controlled in the GEMFlow™ Software.

◆ Up to 4 bottle heaters simultaneously usable in all GEMStar XT systems

◆ 200 °C Maximum Control Temperature

◆ High temperature insulation to retain heat

◆ Can be easily installed or removed from material bottles

◆ 100% Electrical/Wiring Compatibility with all GEMStar XT systems

GEMStar Bottle Heater Specifications	
Compatibility	All XT System with GEMStar Material Bottles
Power	145 W (100 W bottle heater, 45 W valve heater)
Electrical Input	120 VAC (supplied through GEMStar system)
Control	GEMFlow Software
Electrical Interface	Molex
Temperature measurement	Internal RTD
Maximum Temperature	200 °C
Material	Silicone Sponge, Red
Fasteners	11/18 Snap-on, 4X
Dimensions	3.5" L x 3.5" W x 5.0" H
Manual Valve Control	Yes, External Access
